

SOUTH AUSTRALIAN CLAY TARGET ASSOCIATION Inc

COMMONWEALTH & STATE TITLE CHANGE POLICY

POLICY No.20

PROCEDURE

The South Australian Clay Target Association Inc (SACTA) produces a program of clay target events that are conducted by member clubs within the Association. The process for production of this program includes ensuring that there exists no conflict of dates in the running of Commonwealth and State Titles between member clubs.

Clubs at times have found that they have a reason to cancel or readvertise a Commonwealth or State Title event for another day than that which is advertised. Without the appropriate notification this can cause embarrassment for competitors that attend at the incorrect time or for the association or club that has reprogrammed the shoot.

To assist in alleviating this problem, the following procedure is to be adopted when there is any change to the programming date or time for Commonwealth or State Title.

1. SACTA is to be advised in writing of the request for change including proposed date(s);
2. If there is no conflict with the running of other Commonwealth or State Titles SACTA will approve of the change;
3. SACTA will advise all Zone Secretaries of the change;
4. The club making the change is to advertise the change in the CTSN (Clay Target Shooting News) prior to the original date advising of the changes to the program or day of competition; and
5. The SACTA webmaster is to be provided with the new dates for publishing on the SACTA website.

This policy is to be read in conjunction with all SACTA policies and the Shooting Rules of the Australian Clay Target Association.
